

SAY RICH OLD MAN STOLE WIVES' LOVE

Millionaire Faces Second Suit
for Alienation Within
Two Years.

HUSBANDS SEEK \$50,000

Retired Biscuit Baker Brinckerhoff
Declares He Is Being
Victimized.

NEW YORK, August 2.—For the second time in two years Daniel D. Brinckerhoff, who is seventy-five years old, has been sued for \$50,000 damages and charged with alienation of the affections of another man's wife. He is a millionaire who years ago amassed his fortune baking biscuits. He has been a party to all sorts of queer litigation. The man who wants \$50,000 this time is Arthur L. Kugel, who lives at the Hotel Navarre. About eighteen months ago David M. Oviatt sued Brinckerhoff for \$50,000, alleging alienation of Mrs. Oviatt's affections.

Wife of Traveling Man.

Kugel is a traveling man, about thirty years old. He married his wife, Lillian M., about a year ago. She had a child by a former marriage. She is described as exceedingly handsome. Kugel sued Brinckerhoff in June through Lawyer George M. Osgoodby. In May he sued Mrs. Kugel, at present residing at 259 West Eighty-fourth street, for a divorce. Mr. Brinckerhoff is a widower. He resides with his daughter at 24 West 106th street. It is said that since he met Mrs. Kugel he has spent large sums in giving presents to her and her child. Brinckerhoff, it is understood, has denied all the allegations in Kugel's complaint in his answer, and raised the question of the validity of Kugel's marriage. Kugel says his wife and Brinckerhoff became friendly last September, when she was a bride of four months.

The Oviatt Litigation.

In the Oviatt suit, which is still pending, although there have been rumors of a settlement, there have been various motions, not the least interesting of which was one argued before Supreme Court Justice Blanchard for an injunction restraining Brinckerhoff from foreclosing a \$5,000 mortgage on property at Bath Beach, which stood in the name of Mrs. Oviatt. Mrs. Oviatt alleged that Brinckerhoff gave her the property, and when he took the mortgage it was understood that it was to lapse at his death. A child figured in the suit also. Mrs. Oviatt said that Brinckerhoff had aided her to adopt a boy with flaxen locks, to whom he had made valuable promises. Brinckerhoff appeared in court in person and declared that he had been victimized by Mrs. Oviatt, who, he said, had played upon his sympathies by telling him of her unhappiness at being childless. Mrs. Oviatt retorted that Brinckerhoff forced her presence and attentions upon her. This dispute, it is understood, was settled out of court.

WOOD SUCCEEDS THE REV. S. R. WHITE

Veteran Secretary Examiner
Montgomery Schools 40
Years in Service.

ROCKVILLE, Md., Aug. 2.—Prof. Earle B. Wood has entered upon his duties as the new secretary examiner of the county school board, succeeding the Rev. S. R. White, who has been connected with the school system of this county for a period extending over forty years.

The following resignations of teachers were accepted: Ritchie Haney, at Old Union; R. G. Harpley, at Travilah, and W. S. Ward, colored, at Coleville, and these appointments were confirmed: Beulah Fawcett, at Spencerville; Grace E. Birdsell, at Linden; Ida M. Hickman, at Martinsburg; Emma Hughes, at Burnt Mills; J. Forest Gott, at Barnesville. The secretary reported total receipts for the fiscal year ending July 31, 1906, of \$75,939.00, and disbursements of \$75,737.61, leaving a balance on hand for all purposes of \$201.39, also a draft on the State treasurer for book fund due on and after August 1, of \$4,832.83. Clark Brown, of Brookville, was awarded the scholarship at St. John's. J. W. Kinney and William Caulfield were appointed trustees at Cloppers.

TWENTY CARS' BEAMS SCRAPING HIS BACK

ASHEVILLE, N. C., Aug. 2.—Twenty cars passed over the body of Joseph P. Clark, a brakeman on the Southern railway, and he lives to tell the tale. Beyond a limp he will soon be as good as new.

Clark was crossing from one gondola car to another when a sudden lurch of the train precipitated him headlong between the cars. He flattened himself on the rails, fairly squeezing the breath out of himself in his effort to economize space. One foot was run over before he could jerk it off the rail, the sole of his shoe being cut off, taking with it the fleshy part of the heel. Aside from this Clark was not hurt, although he could readily count the number of cars passing over him by feeling their bottoms scrape against his back as they passed. He was taken to the Mission Hospital in Baltimore.

Sore Lungs

We want everybody who has a hard cold in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells us there is nothing its equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and weak lungs. Ask your doctor about this.

J. C. Ayer & Co., Lowell, Mass.

Smallest of Triplets Hurried to Incubator

Tiny Babies That Could Find Ample Room in
a Coat Pocket Are Duly Named and
Very Much Alive.

NEW YORK, Aug. 2.—With a combined weight of only forty-two ounces the smallest triplets known to medical science to survive more than a few hours were received at the infant incubator at Dreamland, Coney Island, and are doing extraordinarily well. Immediately after the birth of the two girls and a boy, Charles Spier, the father, who lives at 166 Hamburg avenue, Brooklyn, called upon Dr. S. Fischel, director of the Dreamland incubators, in the hope of saving the lives of the youngsters, who are so tiny that they could easily be placed in a coat pocket. Dr. Fischel wrapped the infants in

cotton and hurried them to the incubators, where treatment was at once begun. The boy and his two sisters were christened on their arrival in the incubator institution. The boy was given William and the two girls were given the names of Madeline and Gertrude. The heads of the infants are not much larger than an ordinary gold watch, while the hands are not as large as a toothpick. Standing erect the tiny human beings would be pigmies alongside of a quart milk bottle. The remarkable triplets swell the family of Mr. and Mrs. Spier to nine children. All the other children were born under normal conditions and are in the best of health.

THE OLD TOWN PUMP FOR YE OLDE PEOPLE

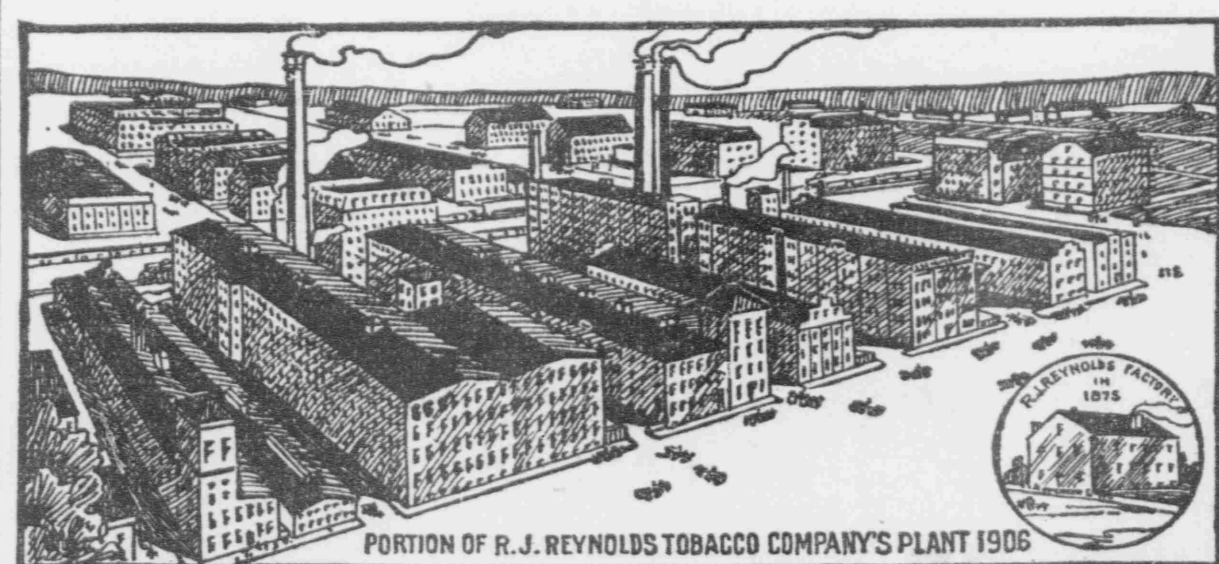

Oldest Inhabitants Resolute Against
Proposition to Close Up
City Wells.

Believing that the water in the many wells throughout the city is much more healthful, refreshing and sanitary than that from the Potomac, a resolution was introduced at the meeting of the Oldest Inhabitants' Association held in the Corcoran building last night opposing the proposed action of the District authorities to do away with the public drinking wells and pumps. The resolution was introduced by John B. McCarthy, and was unanimously adopted. An application for membership was received from William M. Stuart, Allison Naylor, Jr., presided at the meeting. Plans for the celebration of the forty-first anniversary of the association, which will occur December 7, were discussed.

A resolution making the special order of business for that evening the reading of the names of members who have died during the past year, and allowing all members to make any remarks they may wish to, was referred to the entertainment committee. It is probable that favorable action will be taken on the matter at the next meeting.

DOG HOLDS UP CARS FOR THIRTY MINUTES

PHILADELPHIA, Aug. 2.—Trolley cars were held up for nearly half an hour shortly before 8 o'clock last evening at Eleventh and Market streets, when a dog was struck by a trolley car of the Market street division. The animal was wedged in between the truck and motor and had to be taken out through the trap door in the floor of the car. Despite the fact that the animal had been wedged under the car half an hour, it sustained only a broken hind leg. Reserve Policeman Callahan, crawled under the car to extricate the animal, but found it hopelessly jammed in between the motor and the floor of the car. The cries of the suffering animal could be plainly heard and the trolley car was going to send for the repair wagon to jack the car up, when Callahan thought of the trap door in the car. The trap door was opened and the dog raised its head above the floor and looked around inside the car. It was tenderly taken out and taken to the Morris Refractory, where, if possible, the injured limb will be set.

PORTION OF R. J. REYNOLDS TOBACCO COMPANY'S PLANT 1906

The Largest, Best-Equipped and Cleanest Flat Plug Tobacco Manufacturing Plant in the World

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco.

Only choice selections of this well-matched, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller

amount of sweetening than any other kind, and has a wholesome, stimulating and satisfying effect on chewers.

SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brands of chewing tobacco, and made necessary the enormous growth from a small factory in 1875 to the largest flat-plug factory in the world. The men who started the

Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitative brands, or tobacco of similar appearance.

Be sure the letters on the tag and under the tag spell S-C-H-N-A-P-P-S, and you will have the genuine.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

OYSTER BAYITES STAND ON RIGHTS

Roosevelt's Sturdy Neighbors
Tear Down Millionaire's Fence.

USE THEM TO LIGHT THEIR WORK—People Can Now Use Bathing Place.

NEW YORK, Aug. 2.—President Roosevelt is not the only strenuous man in Oyster Bay. The citizenship of that famous village are a sturdy lot of Americans who "know their rights, and knowing, dare maintain." For instance: A wall with which Millionaire Louis Tiffany fenced in the beach in front of his home, Laurelton, at Cold Springs Harbor, has been torn down by indignant Oyster Bay people, who have been in the habit of picnicking and bathing there.

Citizens were enraged when they were confronted by the wall made of spars and cemented stone. This was on Monday. The town board of Oyster Bay searched the records and found that under patent from George III, the beach where they had always bathed was the people's.

Highway Commissioner William A. Finger captured the body of stern faced men who went of their way with a will, and tore it stone from stone. They made a fire of the spars to light them at their work.

The funeral of Prof. Almon H. Thompson, who died Tuesday night, was held at 2 o'clock this afternoon from his late residence, 1229 Twelfth street northwest. Interment was in Arlington cemetery.

Prof. Thompson had been in the employ of the United States Geological Survey since 1882. He was a graduate of Wheaton College, and at one time served as school superintendent at Lacom and at Bloomington, Ill. He served with the Union army in the civil war, and attained the rank of first lieutenant in the 139th Illinois Volunteers. In 1879 he became acting curator of the Illinois Natural History Society.

Before his connection with the Geological Survey, Prof. Thompson explored the Grand Canyon, of the Colorado with his brother-in-law, Maj. J. W. Powell. During the last eleven years he had charge of the geographic work west of the Mississippi river, and was also in charge of the exhibits of the survey at the Louisiana Purchase Exposition.

SHOT HANK HAFF'S PET TO SAVE APPLE CROP

ISLIP, L. I., Aug. 2.—Alexander Barto was fined \$10 last night by Justice Wright after pleading guilty to a charge of violating the game laws in having killed a squirrel. The squirrel was a pet of the late Capt. Henry C. Haff, who had fed it regularly for more than a year, and was so tame that it would go close to the house for its meals. Barto shot the squirrel a few days ago in the yard of the late captain's house, where he lives. He explained that he did so to protect his crop of apples.

"DANDY DIXIE" SONGS AT THE MAJESTIC

Opening of the Season by Colored Performers, on Saturday Evening.

The opening chorus of the theatrical season of 1906 will be sung at the Majestic Saturday night by the Dandy Dixie Minstrels, said to be the most pretentious aggregation of colored performers ever seen on tour. The company will remain at the Majestic all next week, playing the usual matinees.

Besides John Tucker, the Alabama Blossom, whose inimitable monologue and parodies entertained thousands of theatergoers on the New York roof garden last summer, the Dandy Dixie minstrels offer an olio of specially engaged novelties, a first part of stunning spectacular effects, an after piece of furiously funny farce, "A Fowl Deed," and the famous matchless minstrel musicians, "The Cotton Pickers' Band." Traveling in their \$20,000 Pullman palace car the Dandies, this magnificent company of minstrelsy will tour the world, after visiting every important city of the United States and Canada, from August 6, 1906, until June 30, 1907.

TAGGART TO MARRY A SPANISH HEIRESS

Wooster Report That Divorced Captain
Will Wed in the Philippines.

WOOSTER, Ohio, Aug. 2.—According to a report which is being circulated here among the friends of Capt. Elmore F. Taggart, of divorce fame, he will return from the Philippine Islands a married man. It is said he is to marry the daughter of a wealthy Spaniard, whom he met in Manila, and who is said to own large estates near that city. Some of Taggart's friends refuse to credit the report.

INCREASE IN IMPORTS OF JEWELS AND AUTOS

NEW YORK, Aug. 2.—A summary just issued by the appraiser of merchandise shows a big increase in value of precious stones and a slight increase in the value of automobiles imported here during July as compared with last year. The value of the gems was \$1,729,966, of the automobiles, \$379,881.

REPRIEVE FOR MAN WHO WANTS TO DIE

Murdered His Landlady to
Rob Her of \$12 in
April, 1905.

TRIED SUICIDE WITH SPOON
When Arrested He Asked How Soon He
Could Die—Dislikes All
Delay.

NEW YORK, Aug. 2.—There was a touch of irony to Edward Pekarz in the message which the warden of the death house at Sing Sing took to him yesterday that Governor Higgins had granted a stay of thirty days in his execution. Pekarz wants to die. His friends are trying to save him. He had not been in this country from Austria six months when he murdered his landlady, Mrs. Sarah Rosenberg, of 222 East 101st street, to rob her of \$12. That was in April, 1905. His first question on his arrest was:

"How soon can I die?" He was told he would have to await the process of law. He got tired waiting, and one day he tried to kill himself with a spoon as a knife. When they tried him on trial he wanted to plead guilty. When he was sentenced by Judge Foster to die August 6, he thanked the court for its expedition. When they took him to Sing Sing, he prayed that the days might pass fast. The unlucky man was resigned, but his friends were determined that he should not be executed without a fight. His mother in Austria interested the Government. Last week the Austrian consul in this city asked Governor Higgins for a respite of one month, in which to persuade this man who wants to die that he ought to fight to live.

CHICAGO SALOONS REACH THE LIMIT

CHICAGO, Aug. 2.—No more saloons can be opened in Chicago until the population of the city exceeds 500 for each saloon.

The last saloon license which will probably be issued for the next ten or fifteen years, or until Chicago's population doubles, was issued yesterday at 3 o'clock when a city clerk and city collector closed their doors. There are 7,353 saloons on the books of the city, and this number will remain under the new saloon limitation ordinance, which went into effect today, until the population reaches the 400,000 mark. The law prohibits the issuance of any new licenses, and if any one of the present saloons goes out of business without assigning the license to a successor the license will be lost and there will be one less saloon.

CATARH OF THE INTERNAL ORGANS OFTEN THE WORST FORM OF CATARRH

Miss Helen Spencer, of St. Louis, Was Afflicted for Years with
Catarrh of the Liver; Pe-ru-na Brought Relief.

"I am like a new person and feel perfectly well and happy. I never saw anything work like your valuable Pe-ru-na and it is a pleasure to recommend it to others."—Helen Spencer.

Miss Helen Spencer, 224 Cook Ave., St. Louis, Mo., writes:
"I gladly recommend 'Peruna' to all those who are troubled with catarrh of the liver. That was my trouble for years and I know all about it. I was tired, despondent, had a bad taste in my mouth in the morning and felt generally unwell up nearly all the time. I took 'Peruna' because I had taken about everything else and felt so badly that it seemed imperative that I should still keep on taking it."
"I am like a new person and feel perfectly well and happy. I never saw anything work like your valuable 'Peruna' and it is a pleasure to recommend it to others."

Catarrh of the liver is a new phrase to many people. Many will say, "I never heard of catarrh of the liver," but the very people who say this may be afflicted with the disease.

A catarrhal condition of the stomach may spread to the duodenum and then continue through the large bile ducts into the liver.
This partly obstructs the bile ducts and produces sluggishness of the liver. Sometimes the ducts are so obstructed as to produce a stoppage of the bile, in which case the bile is thickened and forms into concretions called gall stones. Bilious colic is the result.
Most cases of bilious colic depend upon catarrh of the liver. For this condition purgatives are generally used. These give temporary relief, but do not cure. The correct thing to do is to remove the catarrh. Then the liver rights itself.
Anyone troubled with sluggish liver should give 'Peruna' a fair trial. If, after taking one bottle, relief is experienced, it should be followed by a thorough course of 'Peruna' until complete relief is obtained.
